NEWSLETTER

2017

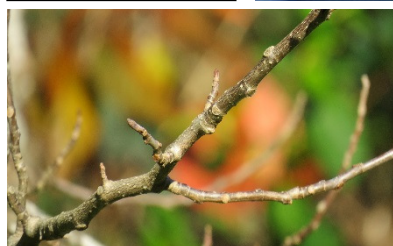

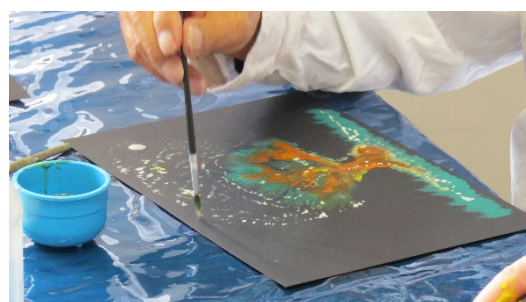

We have been very busy this month enjoying various activities inside where it is nice and warm. We had fun playing a round of indoor mini golf, and we expressed ourselves through art sessions. Just look how beautiful the pictures we painted turned out. We also played lots of games like Bingo and Snakes and Ladders.

On a nice day we took a trip on the train to Johnsonville and back. Everybody enjoyed this outing in small groups.

Another day we visited the library and found books on our favourite subjects.

Winter is here. The leaves are brown and have fallen to the ground and are sometimes covered with frost in the early morning. As long as the sun is shining we are always smiling even with the rain we will not refrain. Sunny, cloudy or wet we love to go out.

We love to be here

We have a new project in our workshop. Our members are making pendants cut out of wood. Paul the Work Therapist is very busy during sessions as 6-8 members taking part in this activity regularly.

Warm Regards from the Marsden Club
